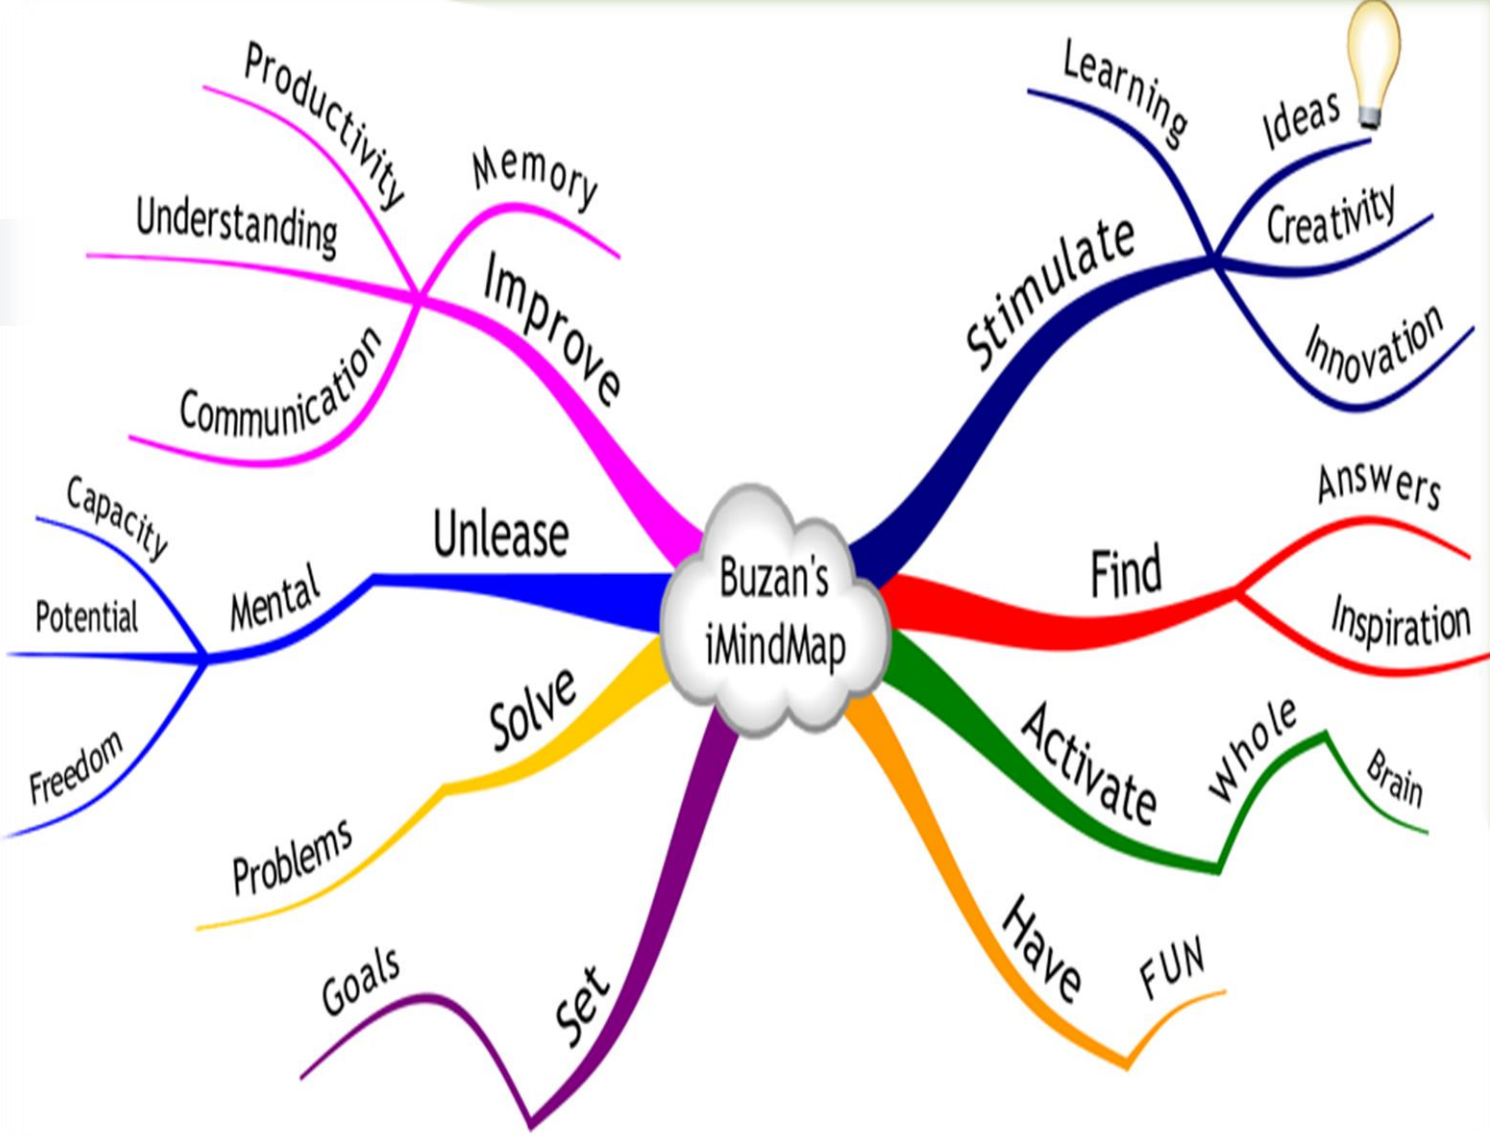
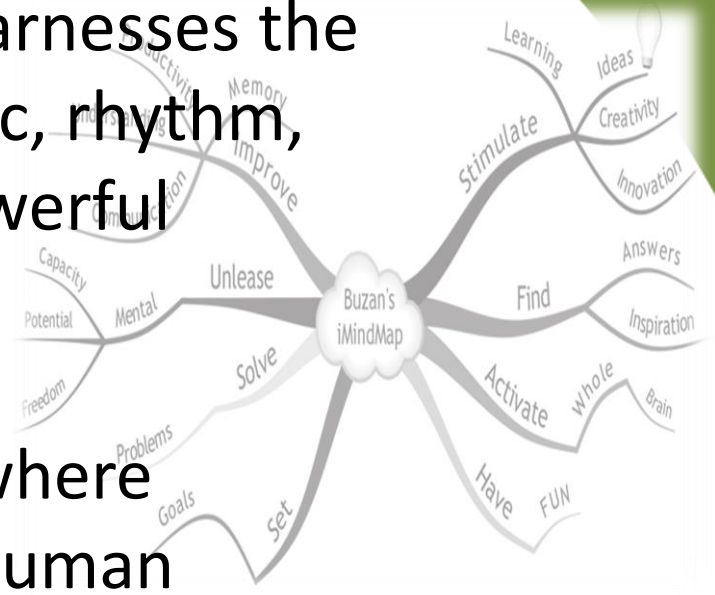
MIND MAPPING



MIND MAPPING

A Mind Map is a powerful graphic technique which provides a universal key to unlock the potential of the brain. It harnesses the full range of cortical skills – word, image, number, logic, rhythm, color and spatial awareness – in a single, uniquely powerful manner. (*Tony Buzan*)



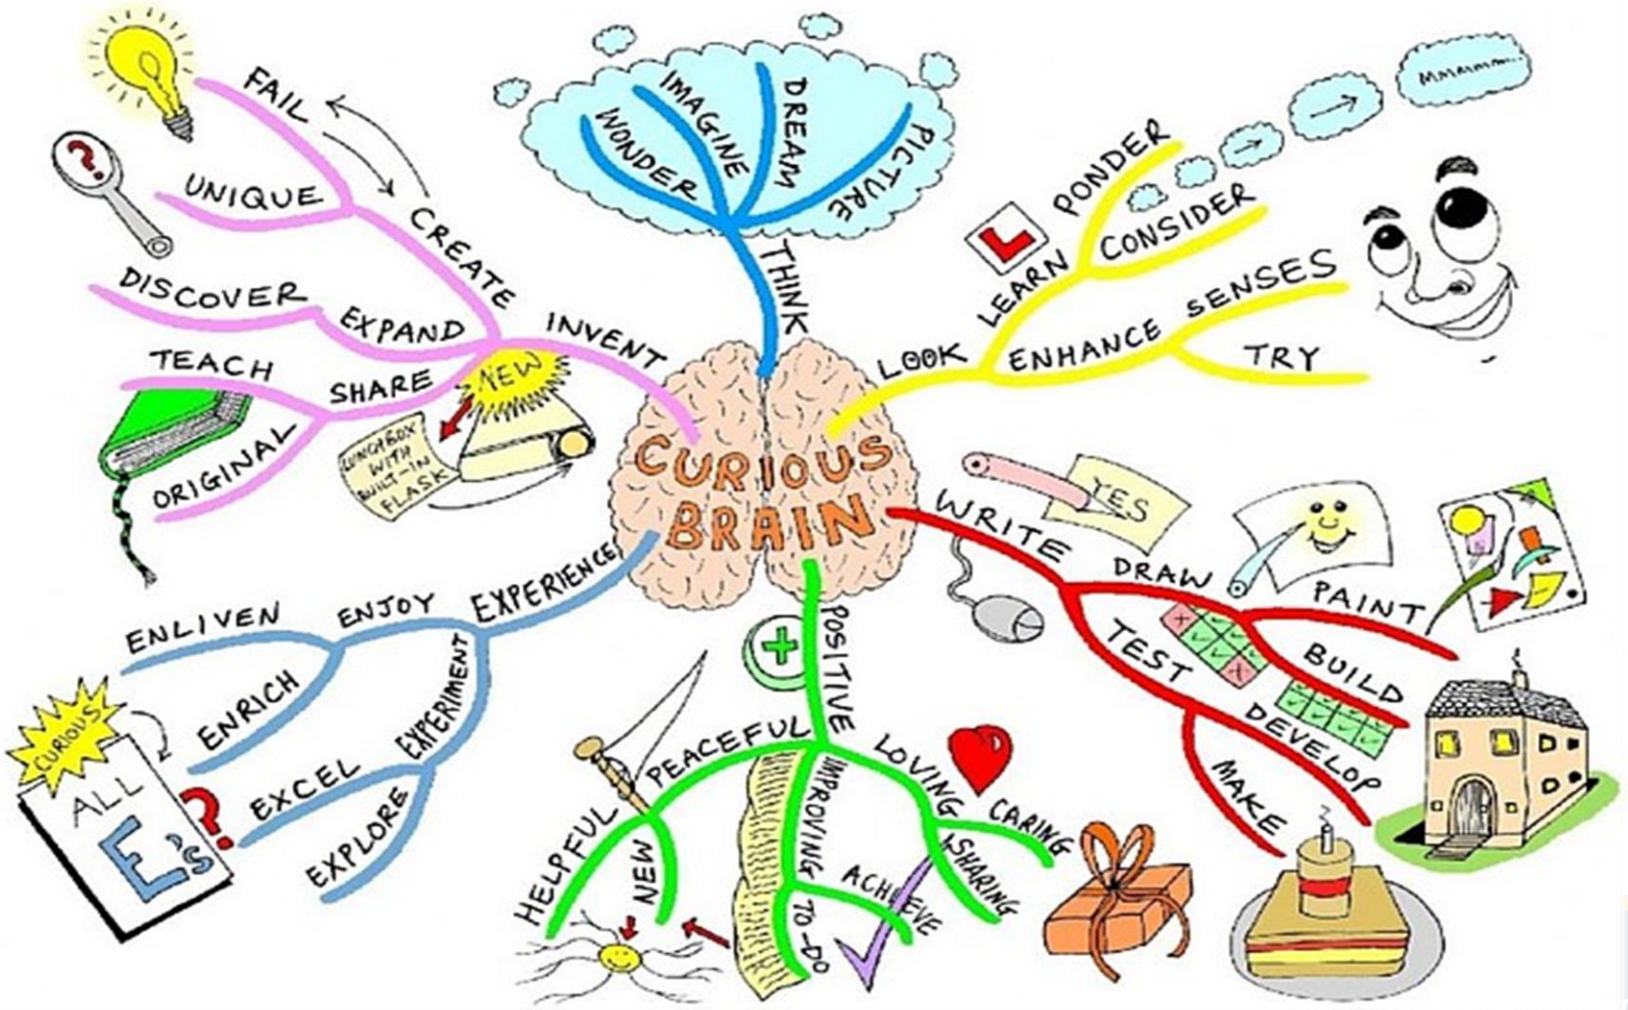
The Mind Map can be applied to every aspect of life where improved learning and clearer thinking will enhance human performance.

MIND MAPPING

So the thoughts in o re like squirrels.

There are all over th

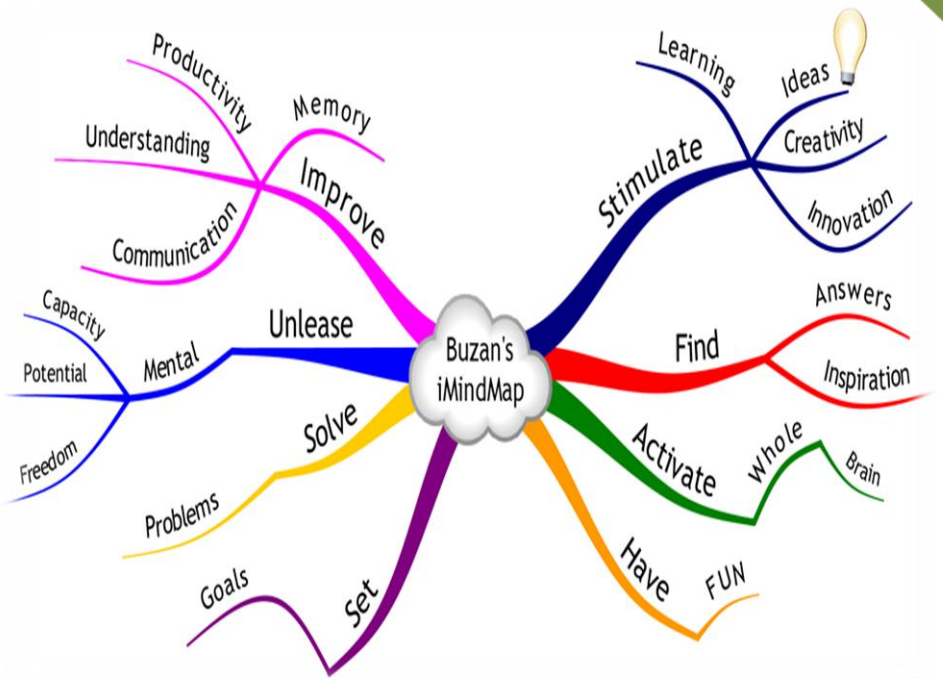
MIND MAPPING

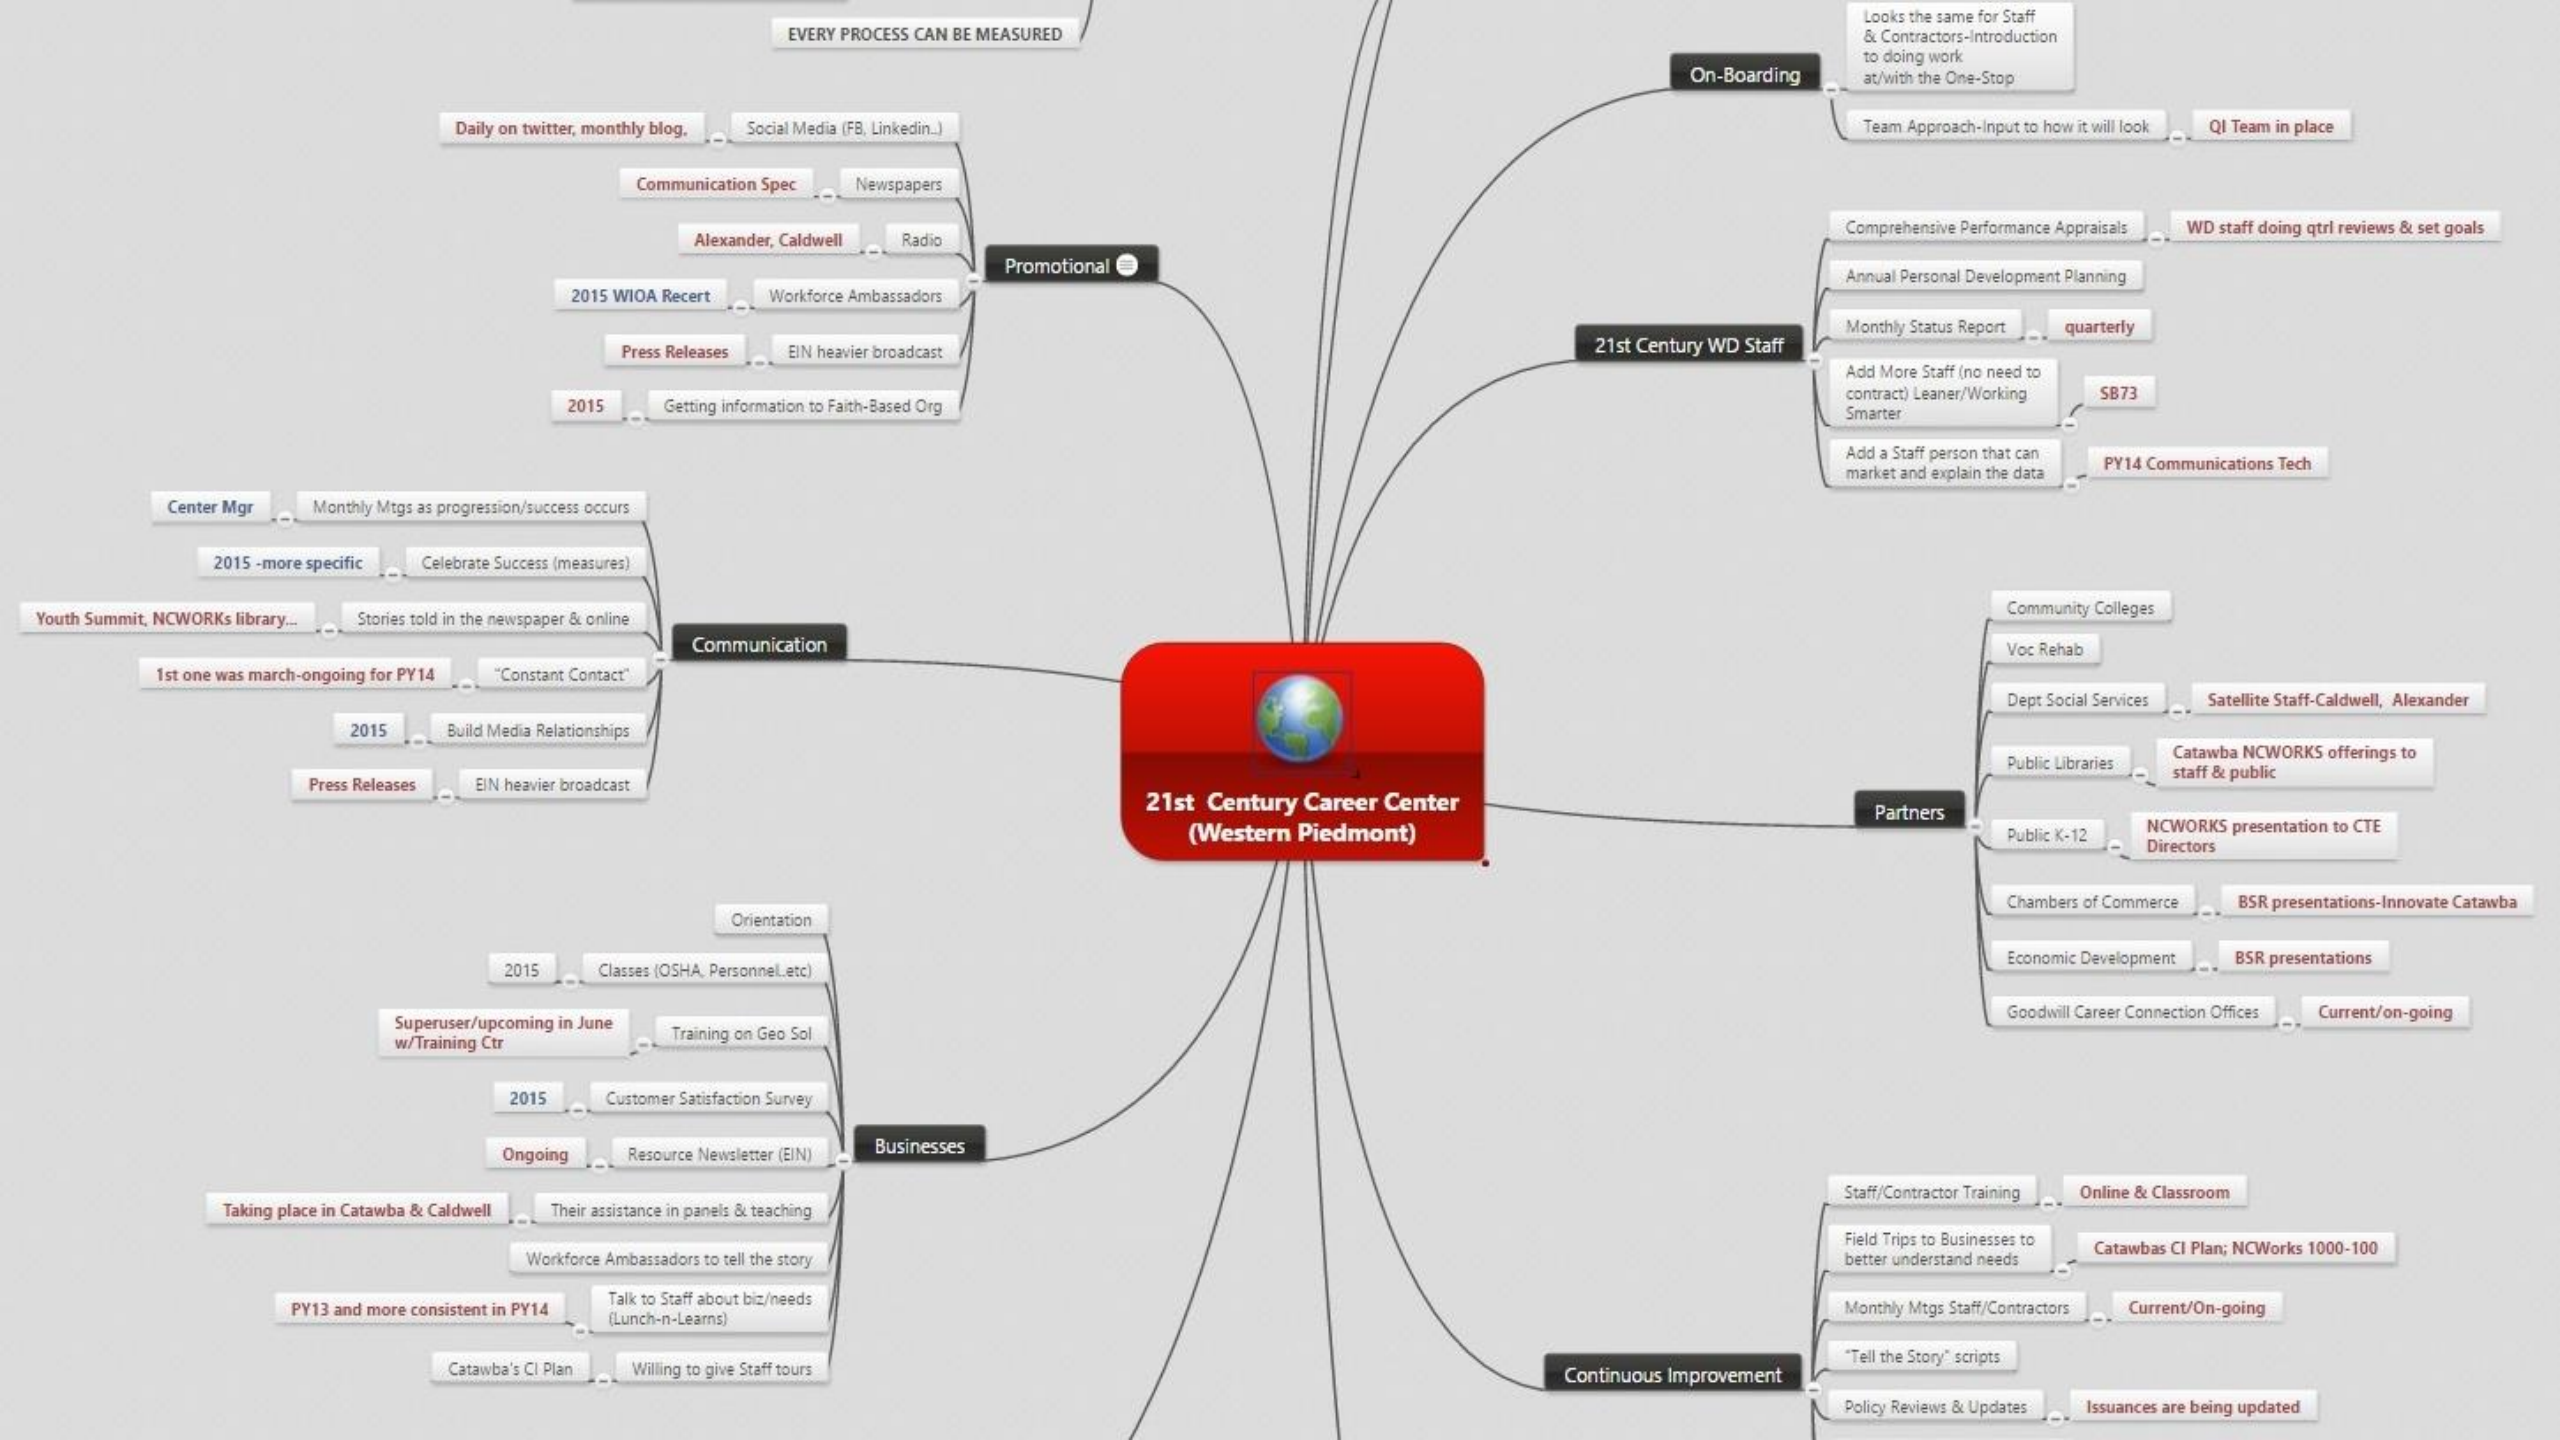


MIND MAPPING

Seven Steps to Construct a Mind Map

- Start in the Center – Pick a Project
- Use Images/Pictures
- Use Colors
- Connect the Main Branches
- Add Curves (if you want)
- Use One-Two key words
- Continue with the connections until you feel you have what you need





EVERY PROCESS CAN BE MEASURED

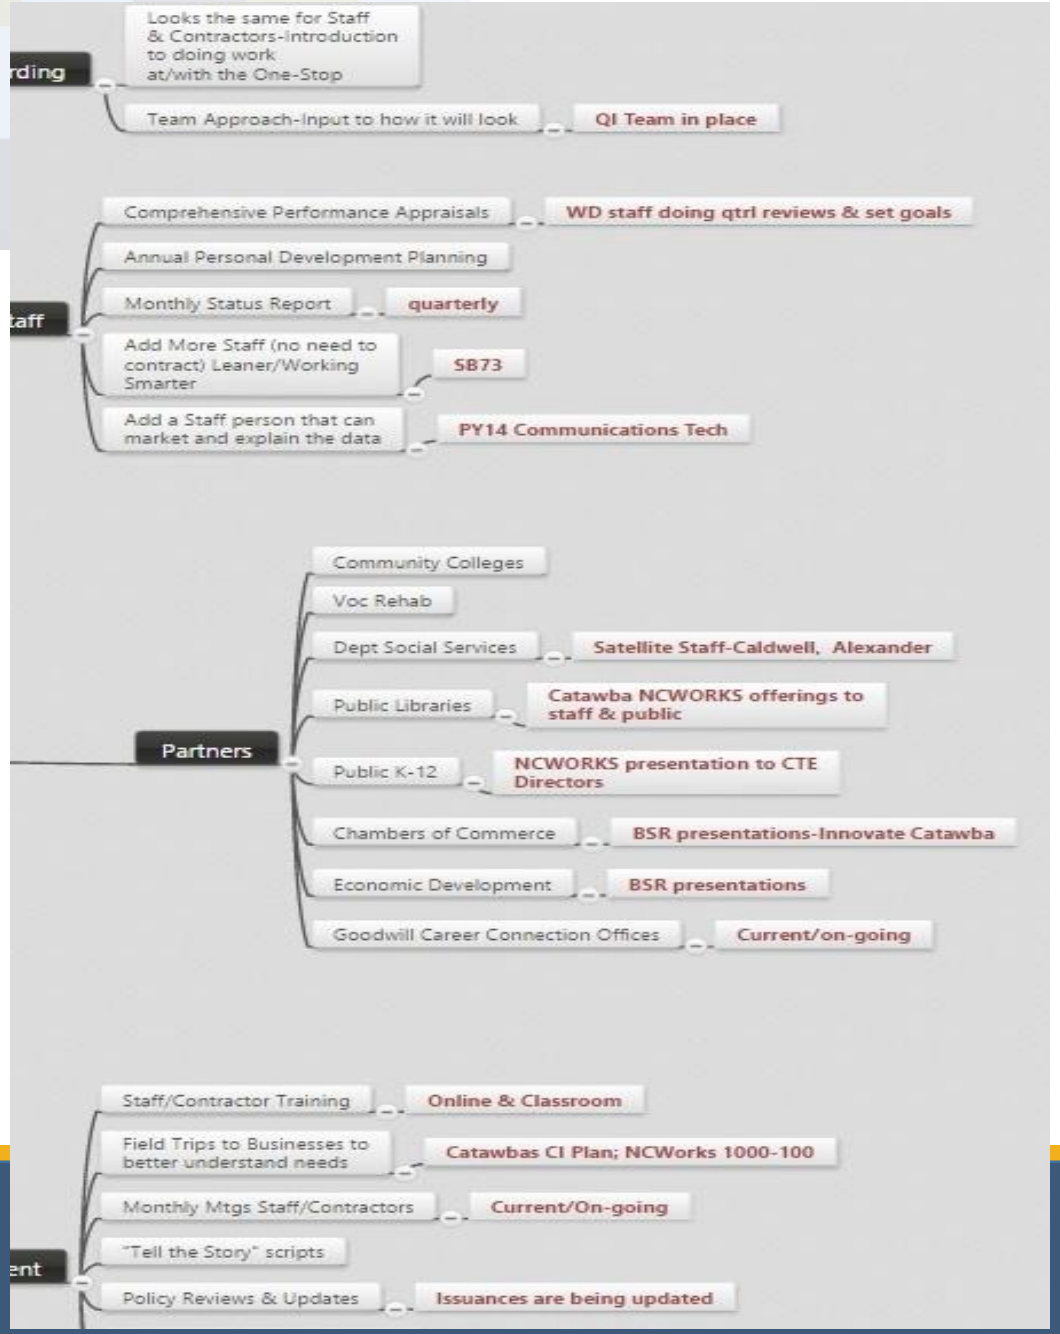
MIND MAPPING

Let's try it.

- Start in the Center – Pick a Project (>customer traffic to the NCWorks Career Center)
- Use Images/Pictures
- Use Colors
- Connect the Main Branches
- Add Curves (if you want)
- Use One-Two key words
- Continue with the connections until you feel you have what you need

MIND MAPPING



- **You can add to each area as a way to reflect that the goal/idea was met. (in red)**
- **Know what to carry over and continue, or remove based on other directions needed.**
