

BECOME A POSTSECONDARY PUNDIT

Find out about educational, employment, and wage outcomes for North Carolina's community college and public university students at [NC Tower](#). A product of the North Carolina [Common Follow-up System](#), NC Tower serves as a resource for individuals considering their postsecondary options, higher education program evaluators, legislative workforce and education policy makers, and economic developers exploring labor force availability. LEAD provided the data analysis and site development for NC Tower with significant input from the NC Community College System, UNC-General Administration, and NC Department of Information Technology.

Answers
